Is there anyway we can clear out the messages in our chats, I don’t think it would be a bad idea, clear out all the talk of hiding the tools and shit

Let’s do that as long as you think it deletes everything, I don’t want the boys to have anything to look at if you know what I mean,I’ll run through let me delete our DMs real quick, send one in like 2 minutes, if that works on my end then we’ll just repeat the process
